

DR. MD. BAYAZID BOSTAMI AKASH

MBBS (DU), MPH (Epidemiology) | BMDC Reg. No.: A-118585

+880 1790-082868 | dr.bayazid.sdf@gmail.com | [linkedin.com/in/dr-bayazid-akash-mph](https://www.linkedin.com/in/dr-bayazid-akash-mph) | Lakshmipur, Chattogram, Bangladesh

PROFESSIONAL SUMMARY

MBBS Physician (BMDC Registered) and Public Health Professional (MPH, Epidemiology) with 5+ years of progressive experience in clinical practice and donor-funded public health programming, including Maternal, Newborn, Child Health and Nutrition (MNCHN), infection prevention & control (IPC), and health security/emergency preparedness across Bangladesh. Proven track record coordinating with government health systems (DGHS, Civil Surgeon Offices, Upazila Health & Family Planning Offices, District Hospitals), development partners, and field teams to deliver technical leadership, clinical mentorship, supportive supervision, and quality assurance across multi-district operations covering 12+ upazilas. Skilled in facility readiness assessments, quality improvement (QI) initiatives, training facilitation and simulation-based learning for frontline health workers, field monitoring in remote and resource-constrained communities, and evidence-based reporting. Strong communicator in English and Bangla across government, donor, and community stakeholders, with hands-on experience managing referral systems and continuity of care for maternal, newborn, and nutrition-related cases, proficiency in MS Office applications, and an experienced motorcycle rider with a valid driving license, comfortable with frequent field travel.

CORE COMPETENCIES

- Maternal, Newborn, Child Health and Nutrition (MNCHN) Programming
- Infection Prevention & Control (IPC), WASH Knowledge
- Government & Multi-Stakeholder Coordination
(DGHS, Civil Surgeon, Upazila Health & Family Planning Offices, District Hospitals, NGOs, Donors)
- Facility Readiness Assessment, Supportive Supervision & Quality Improvement (QI)
- Training Facilitation & Capacity Building for Health Workforce and Community Volunteers
- Data Collection, Compilation, Analysis & Evidence-Based Reporting
- Technical Report Writing, Meeting Minutes & Documentation (English & Bangla)
- Clinical Case Management, Referral Systems & Continuity of Care
- MS Word, Excel, PowerPoint, Email & Online/Digital Reporting Tools
- Safeguarding & Confidentiality in Service Delivery
- Multidisciplinary Team Leadership, Supervision & Mentoring

PROFESSIONAL EXPERIENCE

District Health & Nutrition Officer — World Bank-Funded RELI Project

Oct 2023 – Present

Social Development Foundation (SDF) — Lakshmipur, Bangladesh

Technical Support

- Provide technical oversight and guidance for district-level maternal, newborn, child health and nutrition (MNCHN) interventions, including ANC, PNC, SAM/MAM identification, counselling, and referral services, while strengthening infection prevention & control (IPC) and WASH practices at facility and community levels, under a World Bank-funded project.
- Provide supportive supervision, clinical mentorship, and technical support to 25 field staff (CHNF) and community-level service providers to strengthen quality of care and facility readiness.
- Identify implementation challenges in field-level service delivery, including quality improvement (QI) and facility readiness gaps, and recommend corrective actions to improve programme performance.

Programme Coordination

- Coordinate programme implementation with district administration, government health authorities (in line with DGHS frameworks and guidelines), and community stakeholders across **12 upazilas and 4 districts** (Nilphamari, Chandpur, Lakshmipur, Chattogram).
- Maintain regular communication and working relationships with government counterparts, implementing partners, and donor representatives; organized **34 stakeholder coordination meetings** with district and upazila health authorities, including technical working group sessions.
- Participate in coordination meetings, prepare meeting minutes, and follow up on agreed action points to ensure timely completion of work-plan activities.

Capacity Building

- Plan and deliver training, mentoring, and simulation-based learning sessions for frontline health workers and community volunteers; trained **398+ healthcare providers/community workers** on health, nutrition, and emergency preparedness interventions.
- Coordinate participant selection, logistics, training materials, and documentation; monitor post-training implementation and provide follow-up support.

Monitoring & Quality Assurance

- Conduct regular field visits to monitor project implementation and service quality; completed **176+ supportive supervision visits and facility assessments annually**.
- Monitor project performance against approved work plans and indicators; prepare field monitoring reports with recommendations and follow up on corrective actions.
- Support joint monitoring visits, clinical audits, and quality reviews with government officials and project management.

Data Management & Reporting

- Collect, verify, compile, and analyse project data from field locations; improved reporting completeness from **45% to 78%** through strengthened monitoring and mentoring.
- Ensure timely submission of accurate reports, achieving **95%+ on-time submission** of programmatic and monitoring reports.
- Prepare monthly, quarterly, and other project reports and maintain project databases in line with organizational requirements.

Key Achievements

- Coordinated delivery of health and nutrition services reaching **34,000+ beneficiaries** across four districts.
- Conducted **325+ community health camps** and facilitated **375+ telemedicine sessions**, delivering services to **12,000+ patients** in hard-to-reach areas.
- Identified and managed **145+ SAM/MAM cases**, providing counselling, treatment planning, and referral services.
- Facilitated distribution of maternal allowances to **2,275+ beneficiaries** and caesarean allowances to **170+ beneficiaries**, ensuring accurate identification and programme compliance.

Resident Medical Officer (RMO)

Nov 2022 – Sep 2023

Mohakhali Cancer & General Hospital — Mohakhali, Dhaka, Bangladesh

- Assessed patients on admission, conducted history-taking and physical examinations, and maintained clinical documentation for 450+ hospitalized patients.
- Diagnosed illnesses, initiated treatment, and coordinated urgent investigations under consultant guidance; managed 20–30 inpatient and emergency cases daily.
- Supervised and supported clinical training of **12 junior doctors/interns**, strengthening team-based case management.
- Participated in disease surveillance, outbreak reporting, and clinical documentation activities, maintaining accurate health records; achieved **95%+ timely completion** of documentation.

Research Assistant

Feb 2021 – Oct 2022

Northern International Medical College — Dhanmondi, Dhaka, Bangladesh

- Coordinated field data collection and quality validation for public health research using **Kobo Toolbox and SPSS**, ensuring clean, analysis-ready datasets.
- Conducted statistical analysis and authored technical reports contributing to evidence-based findings for multidisciplinary health research teams.
- Coordinated with doctors, researchers, and project staff, and collaborated across cross-functional teams to ensure on-time delivery of field data and documentation.
